

Moka Bio

Discover, develop, and protect
bioactives — all in one platform.

Date
2026

Web Site
www.moka.bio

E-mail
info@moka.bio

Industries have
one thing in
common:
bioactives.

Bioactives are the ingredients that generate health
benefits.

A new bioactive can
generate more than
\$100 million
annually.

Companies are looking for the next winning bioactive

Nutraceuticals

Cosmetics

Drugs

Agrochemicals

Why do they keep reusing the same bioactives?

Just changing the format...

The current way of developing bioactives is outdated

Manual and
fragmented.

No scalability.

No strong intellectual
property.

Today, companies spend over
USD \$1 billion and up to 15 years
per discovery project, and
can still fail.

The solution is a tool:

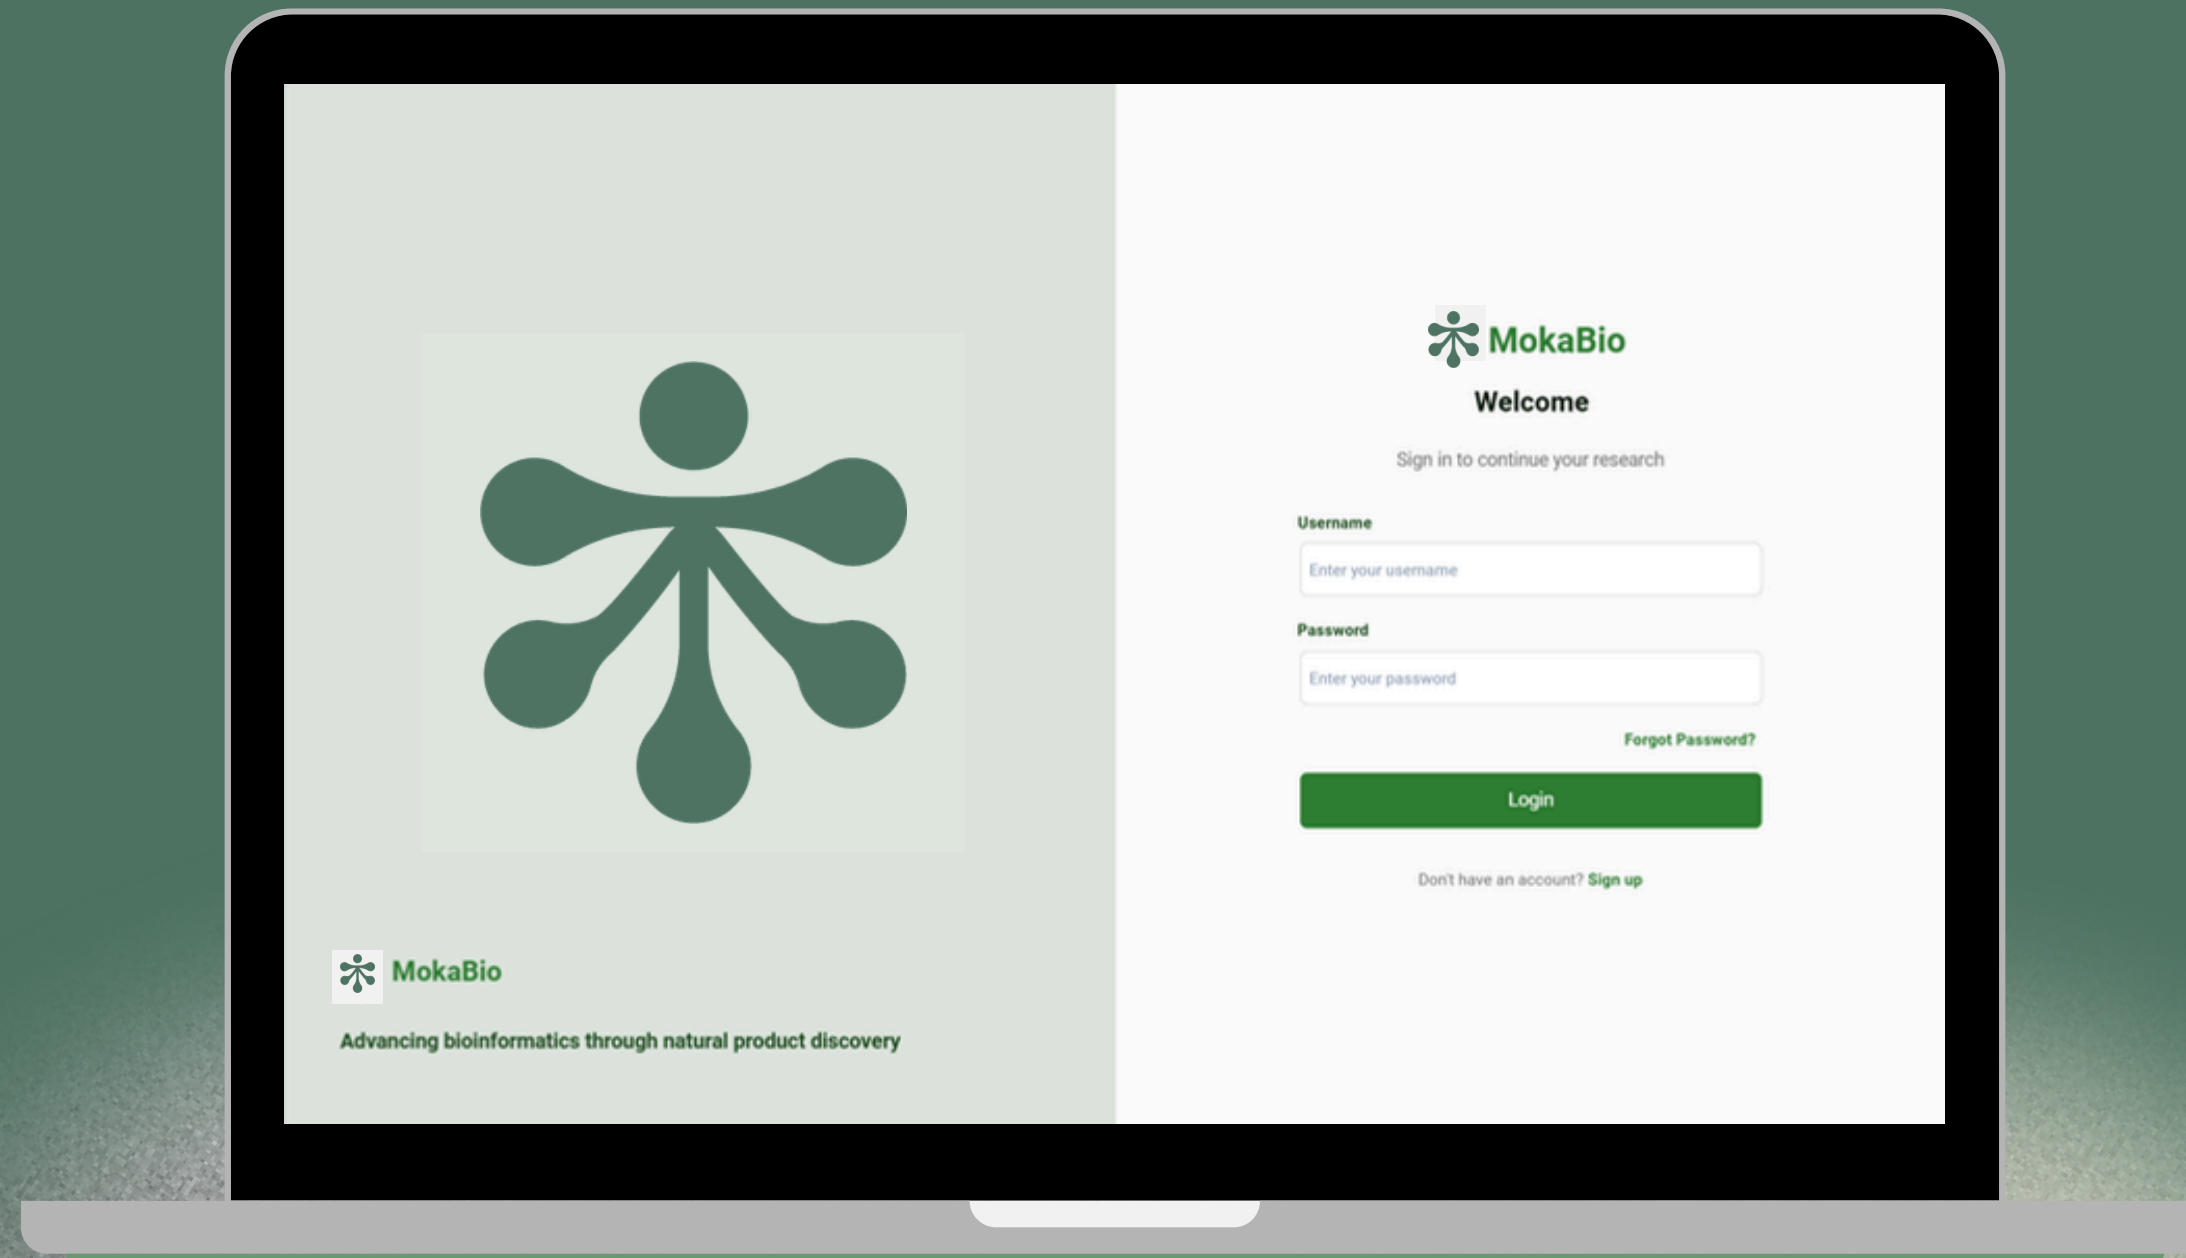

R&D
50x
faster

R&D
16x
cheaper

Design
patentable
products

and that learns and continuously
improves itself

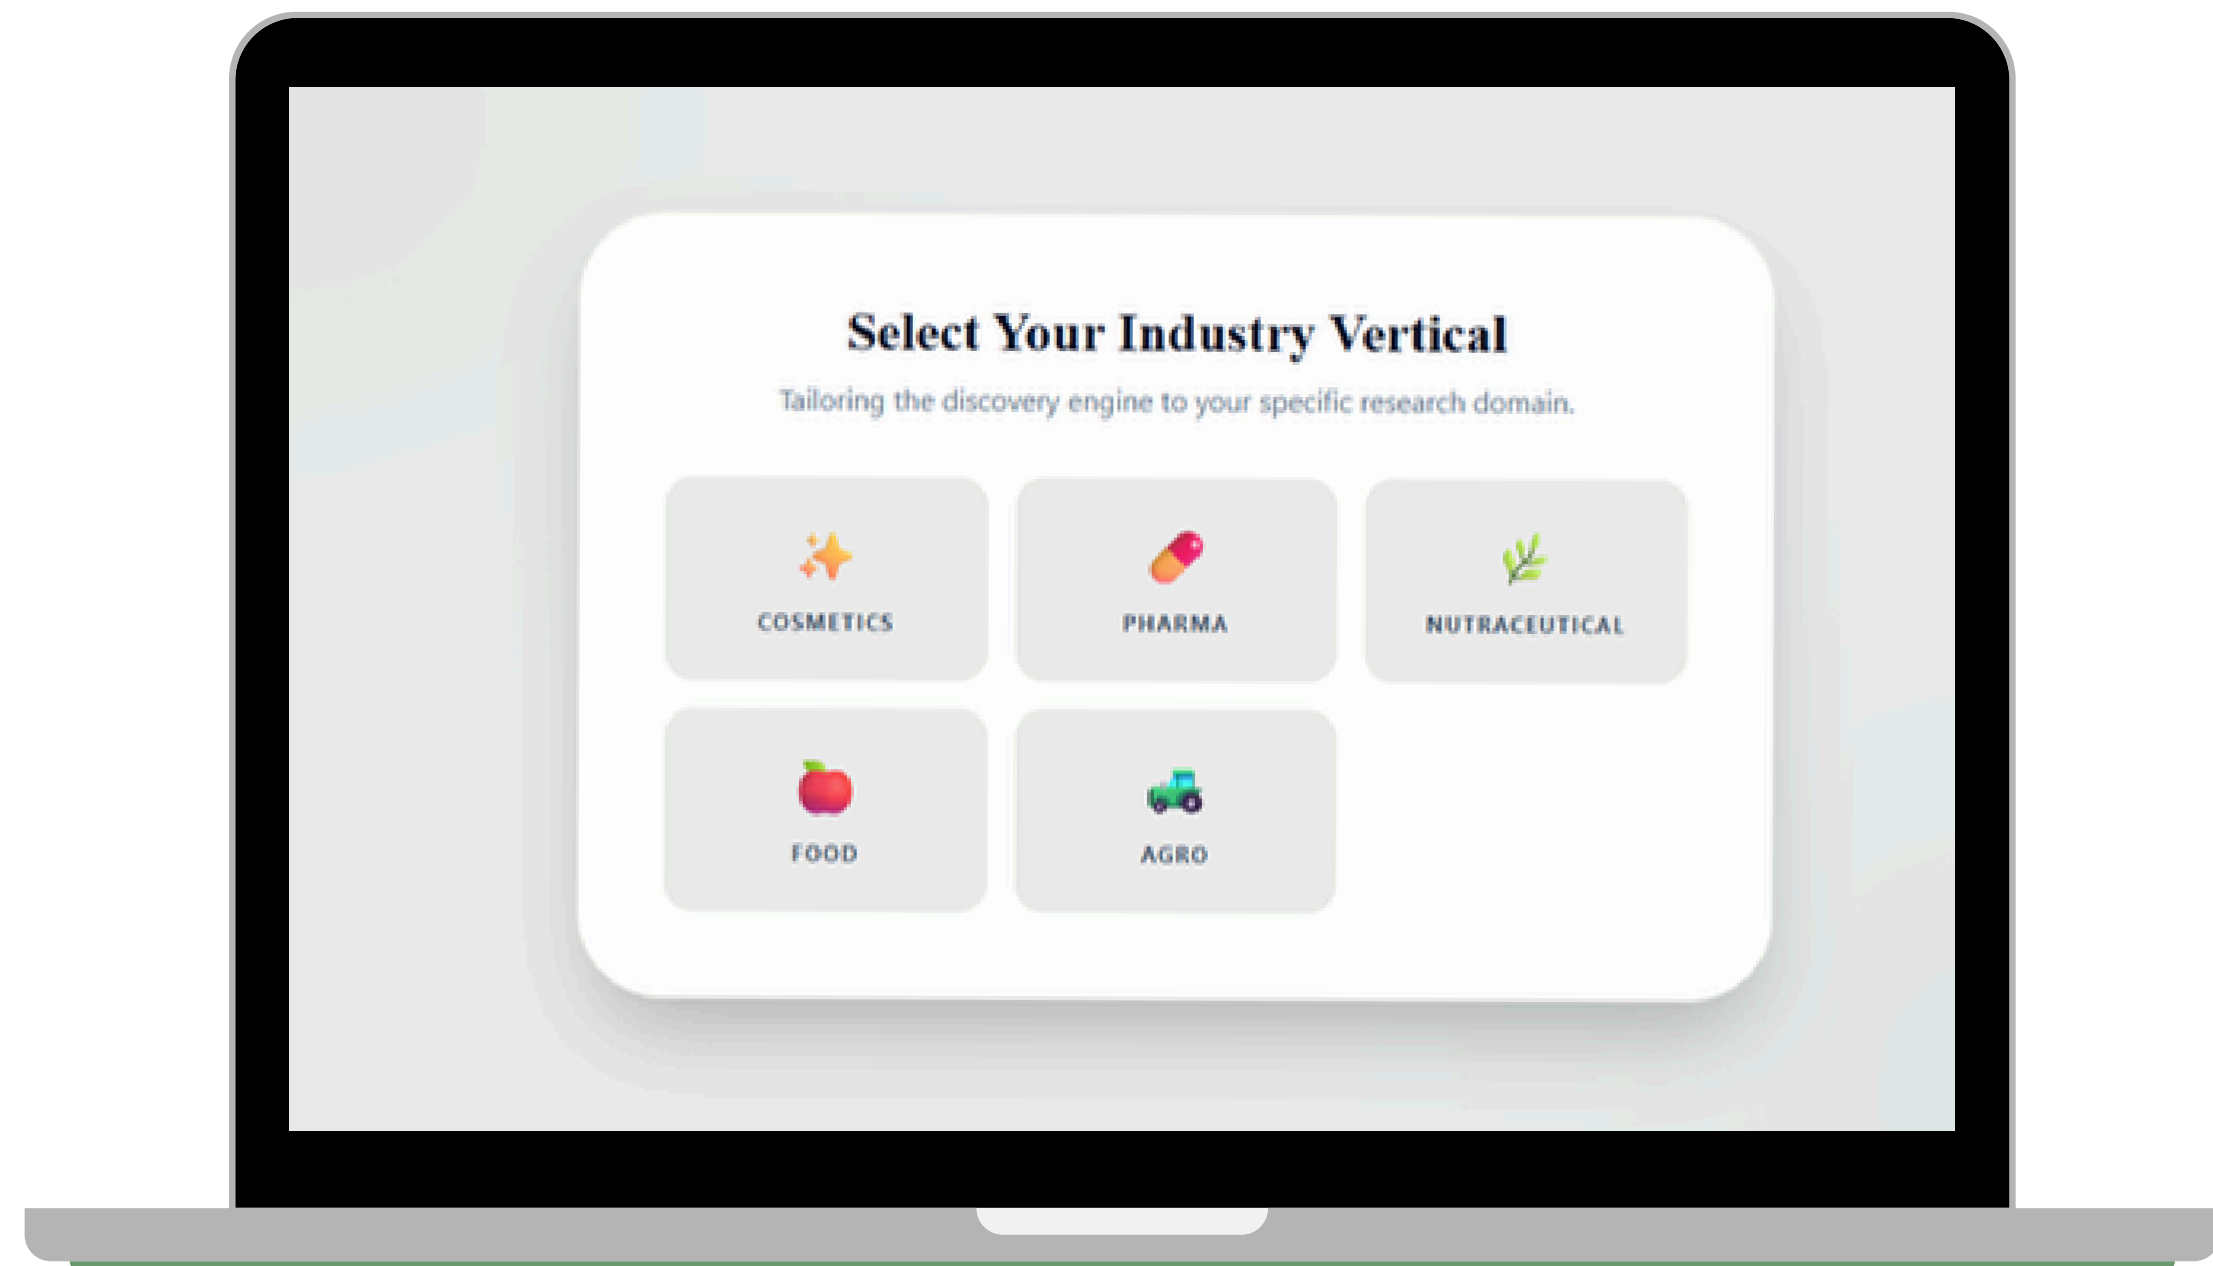

Moka Platform

**The leading platform for designing and discovering
natural bioactives.**

Key features

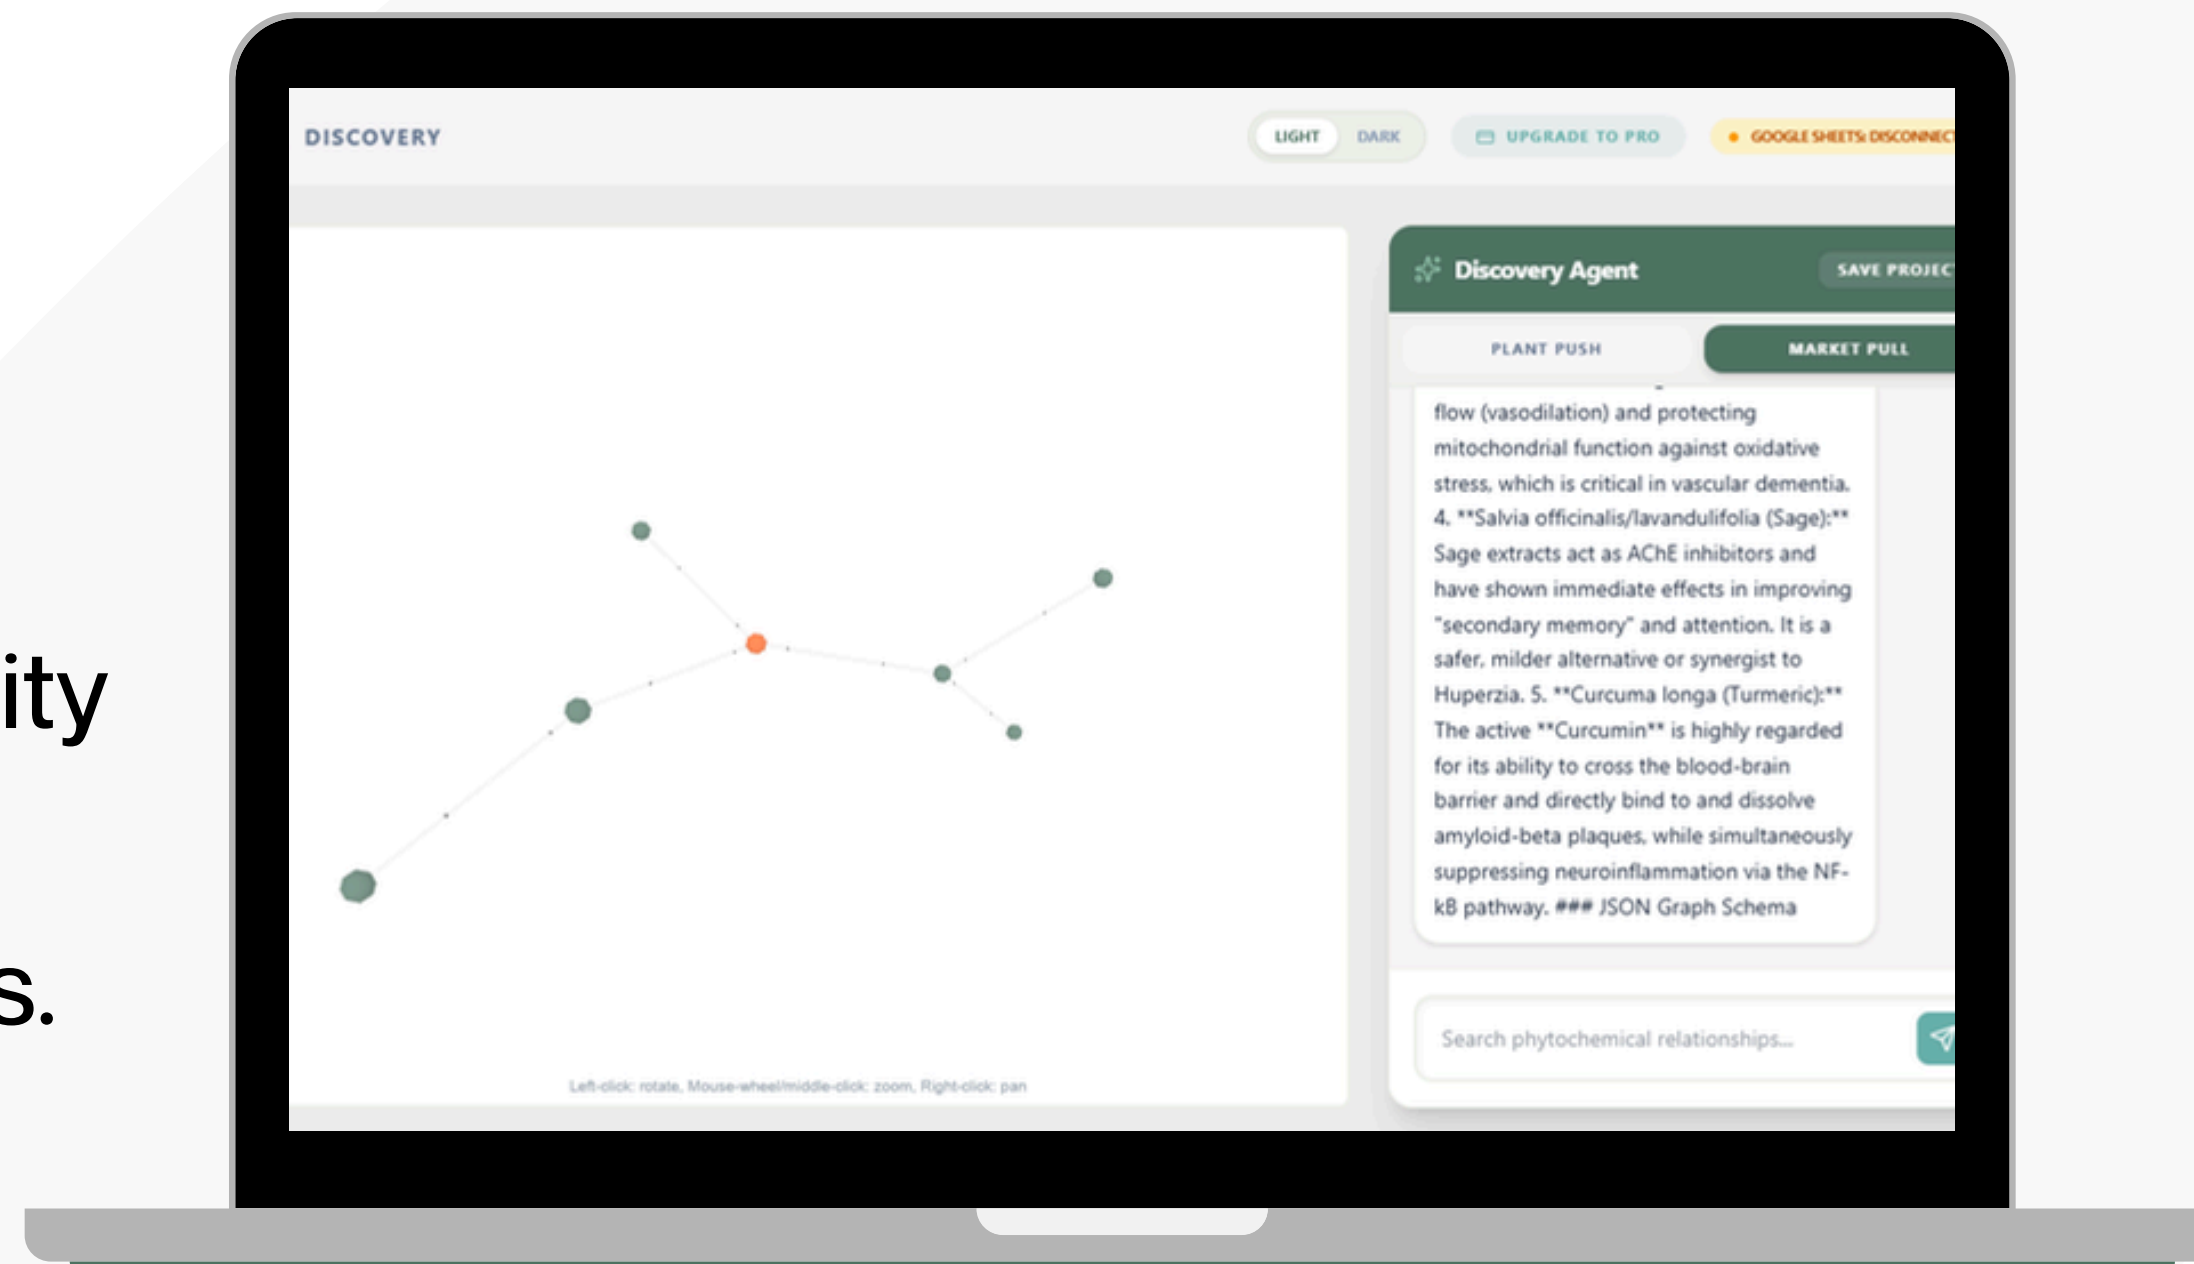

- Segmentation by industry
- Explore
- Virtual Lab
- Patent search
- MokaDex

A platform designed for your needs

Explore

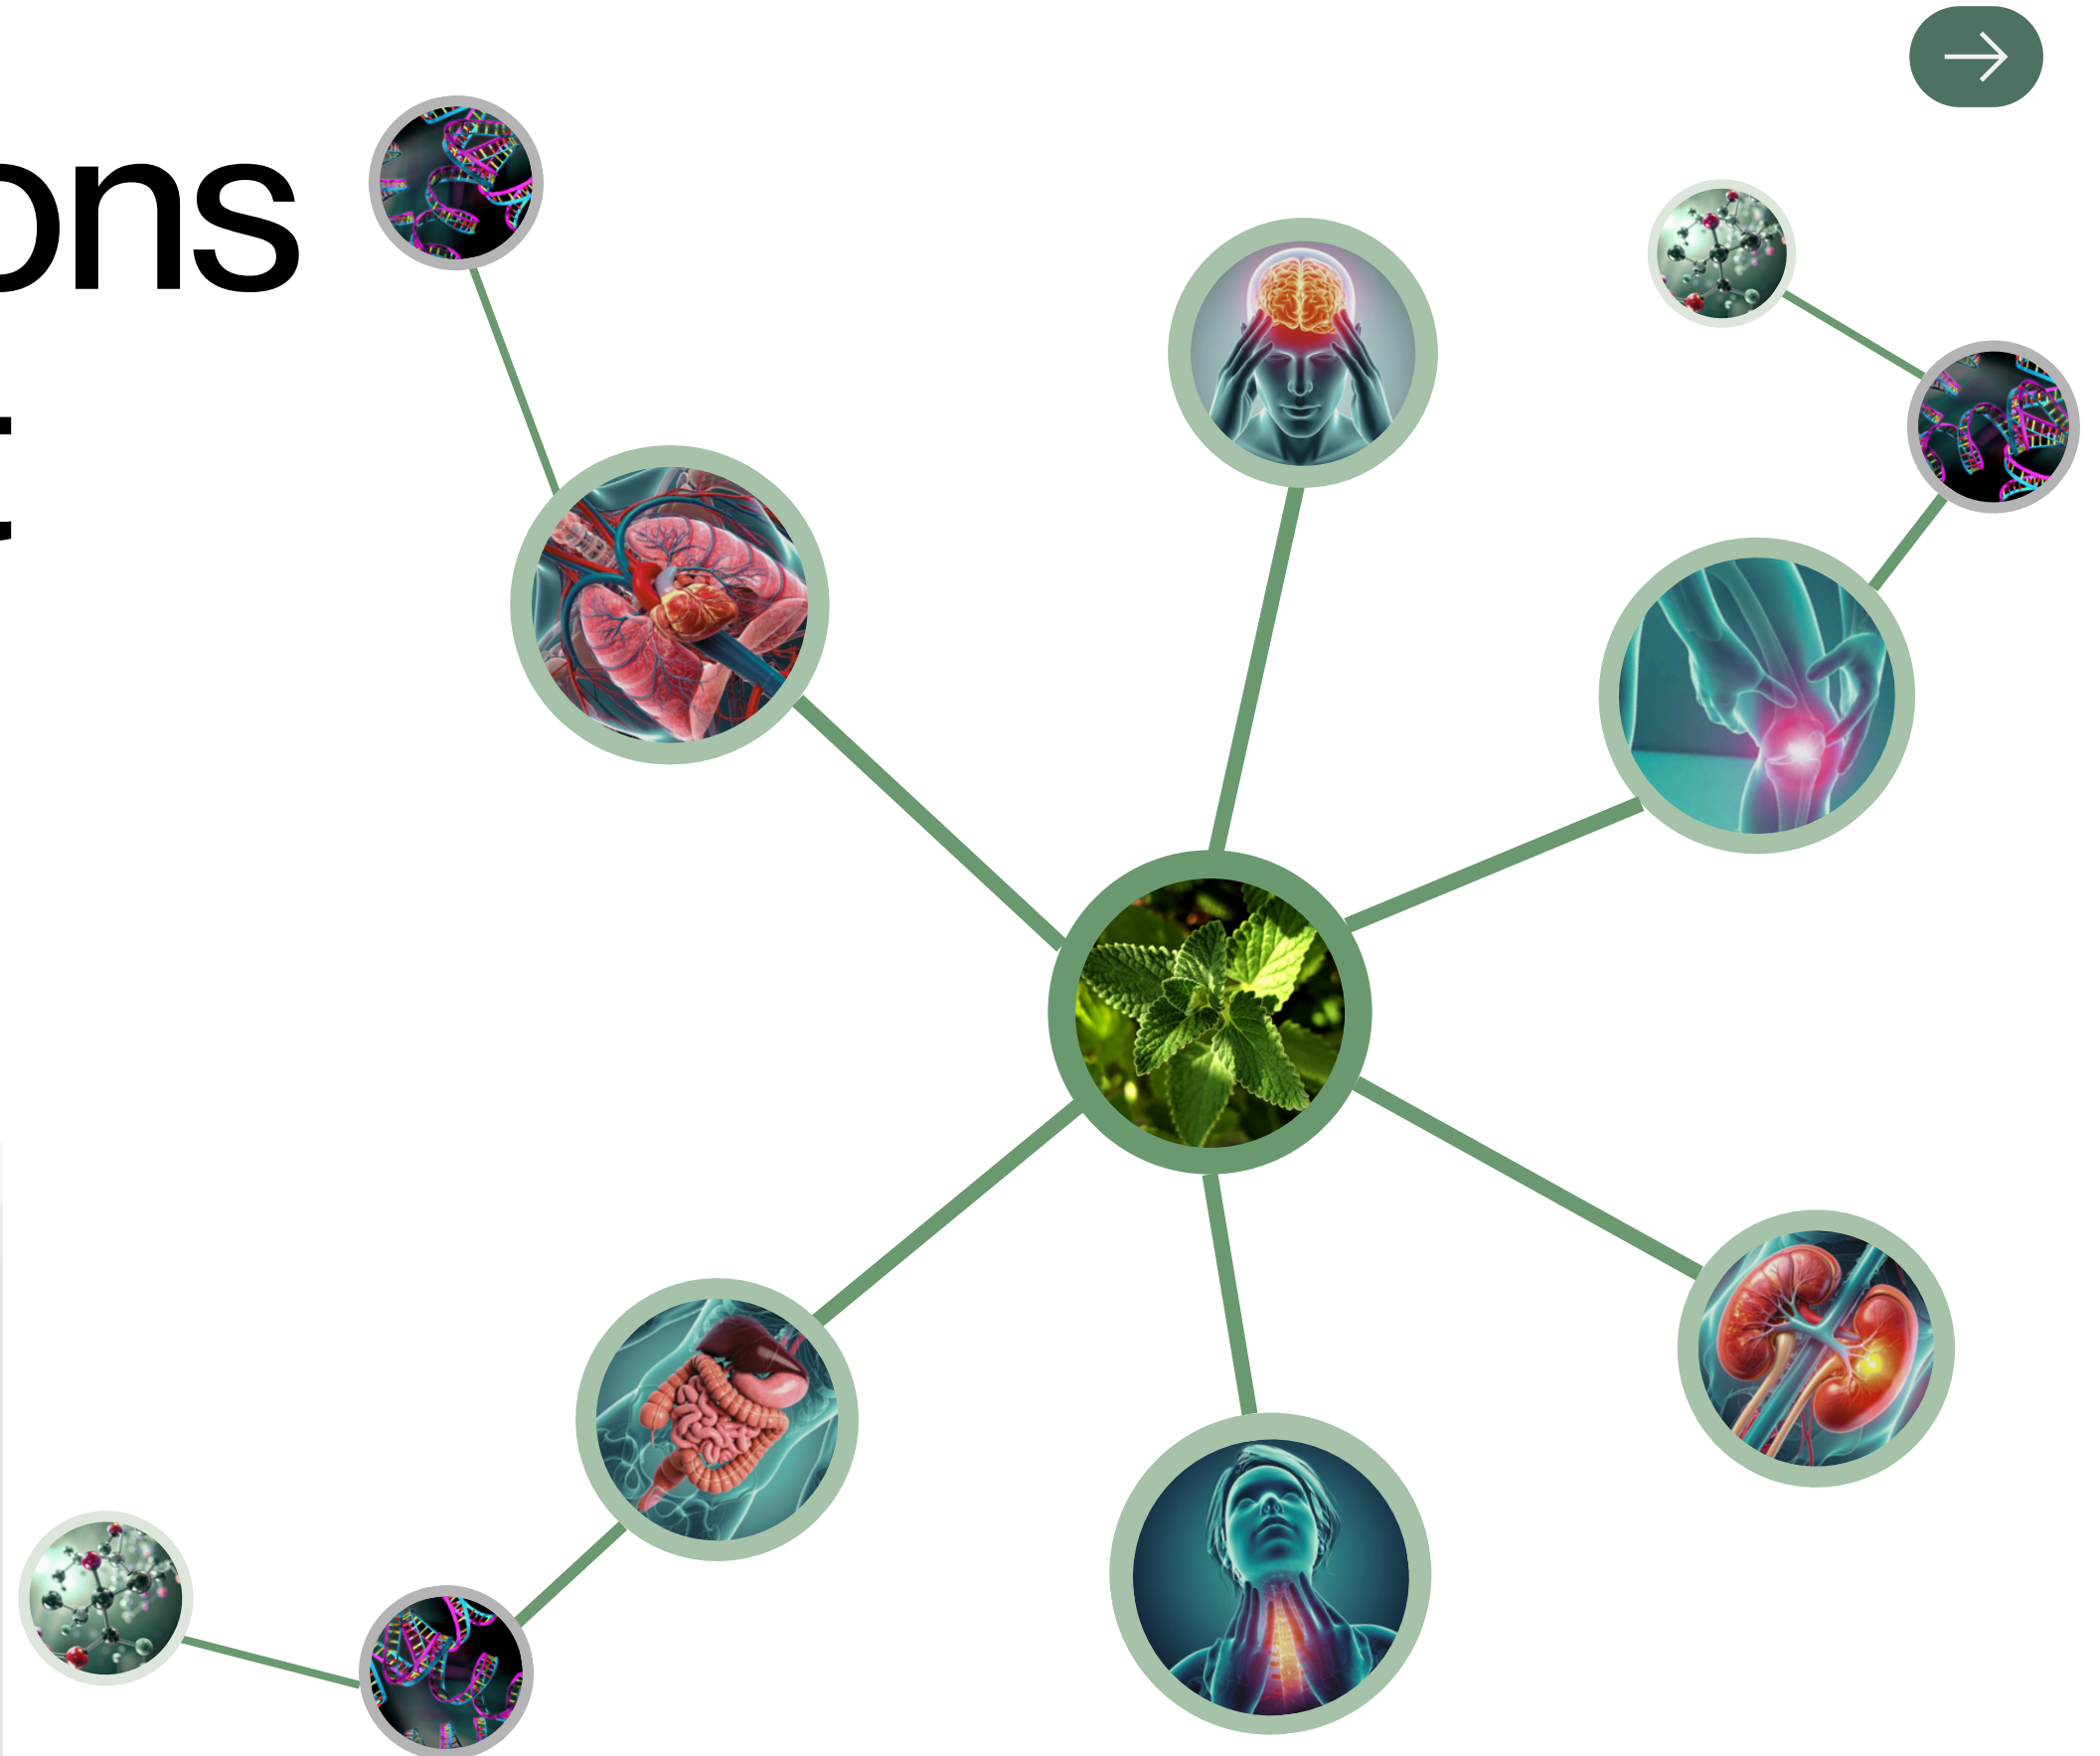

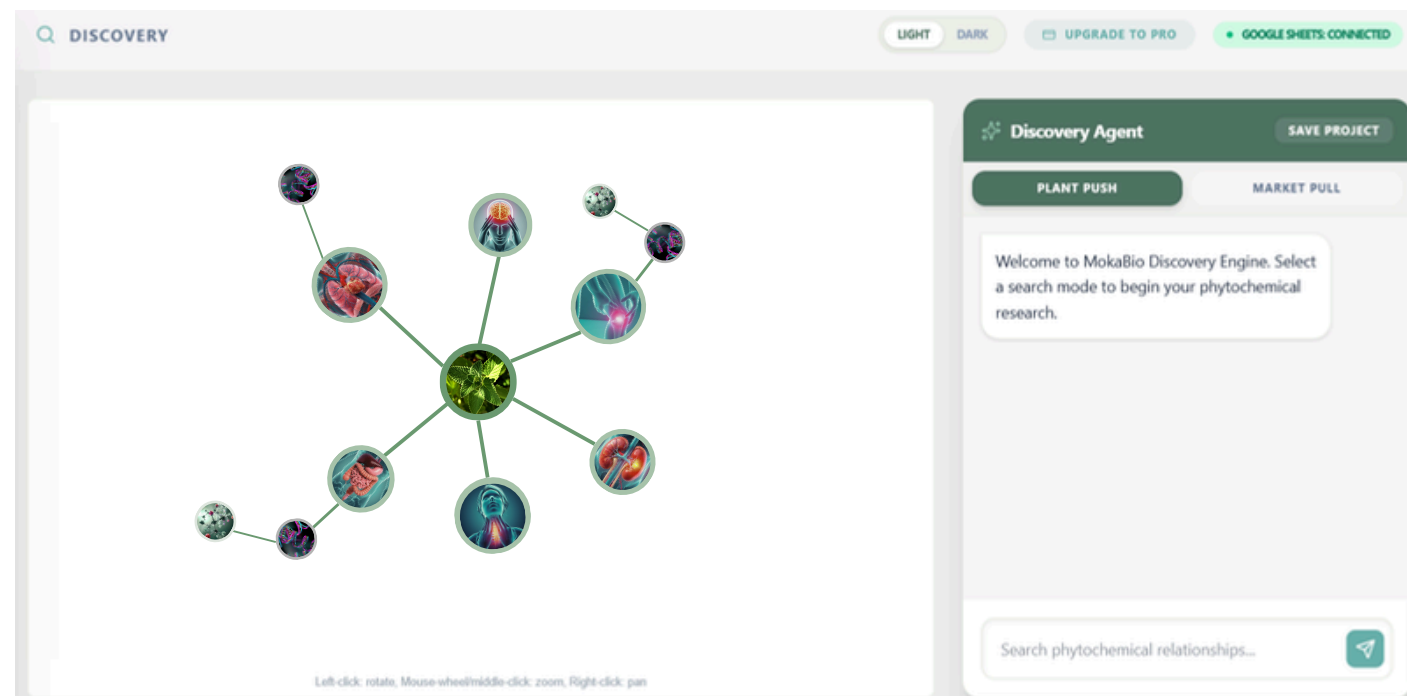

- Plants, extracts, and mixtures.
- Relevant relationships, patterns, and opportunity spaces.
- Stronger starting points.

Explore connections between plants, effect,
and evidence.

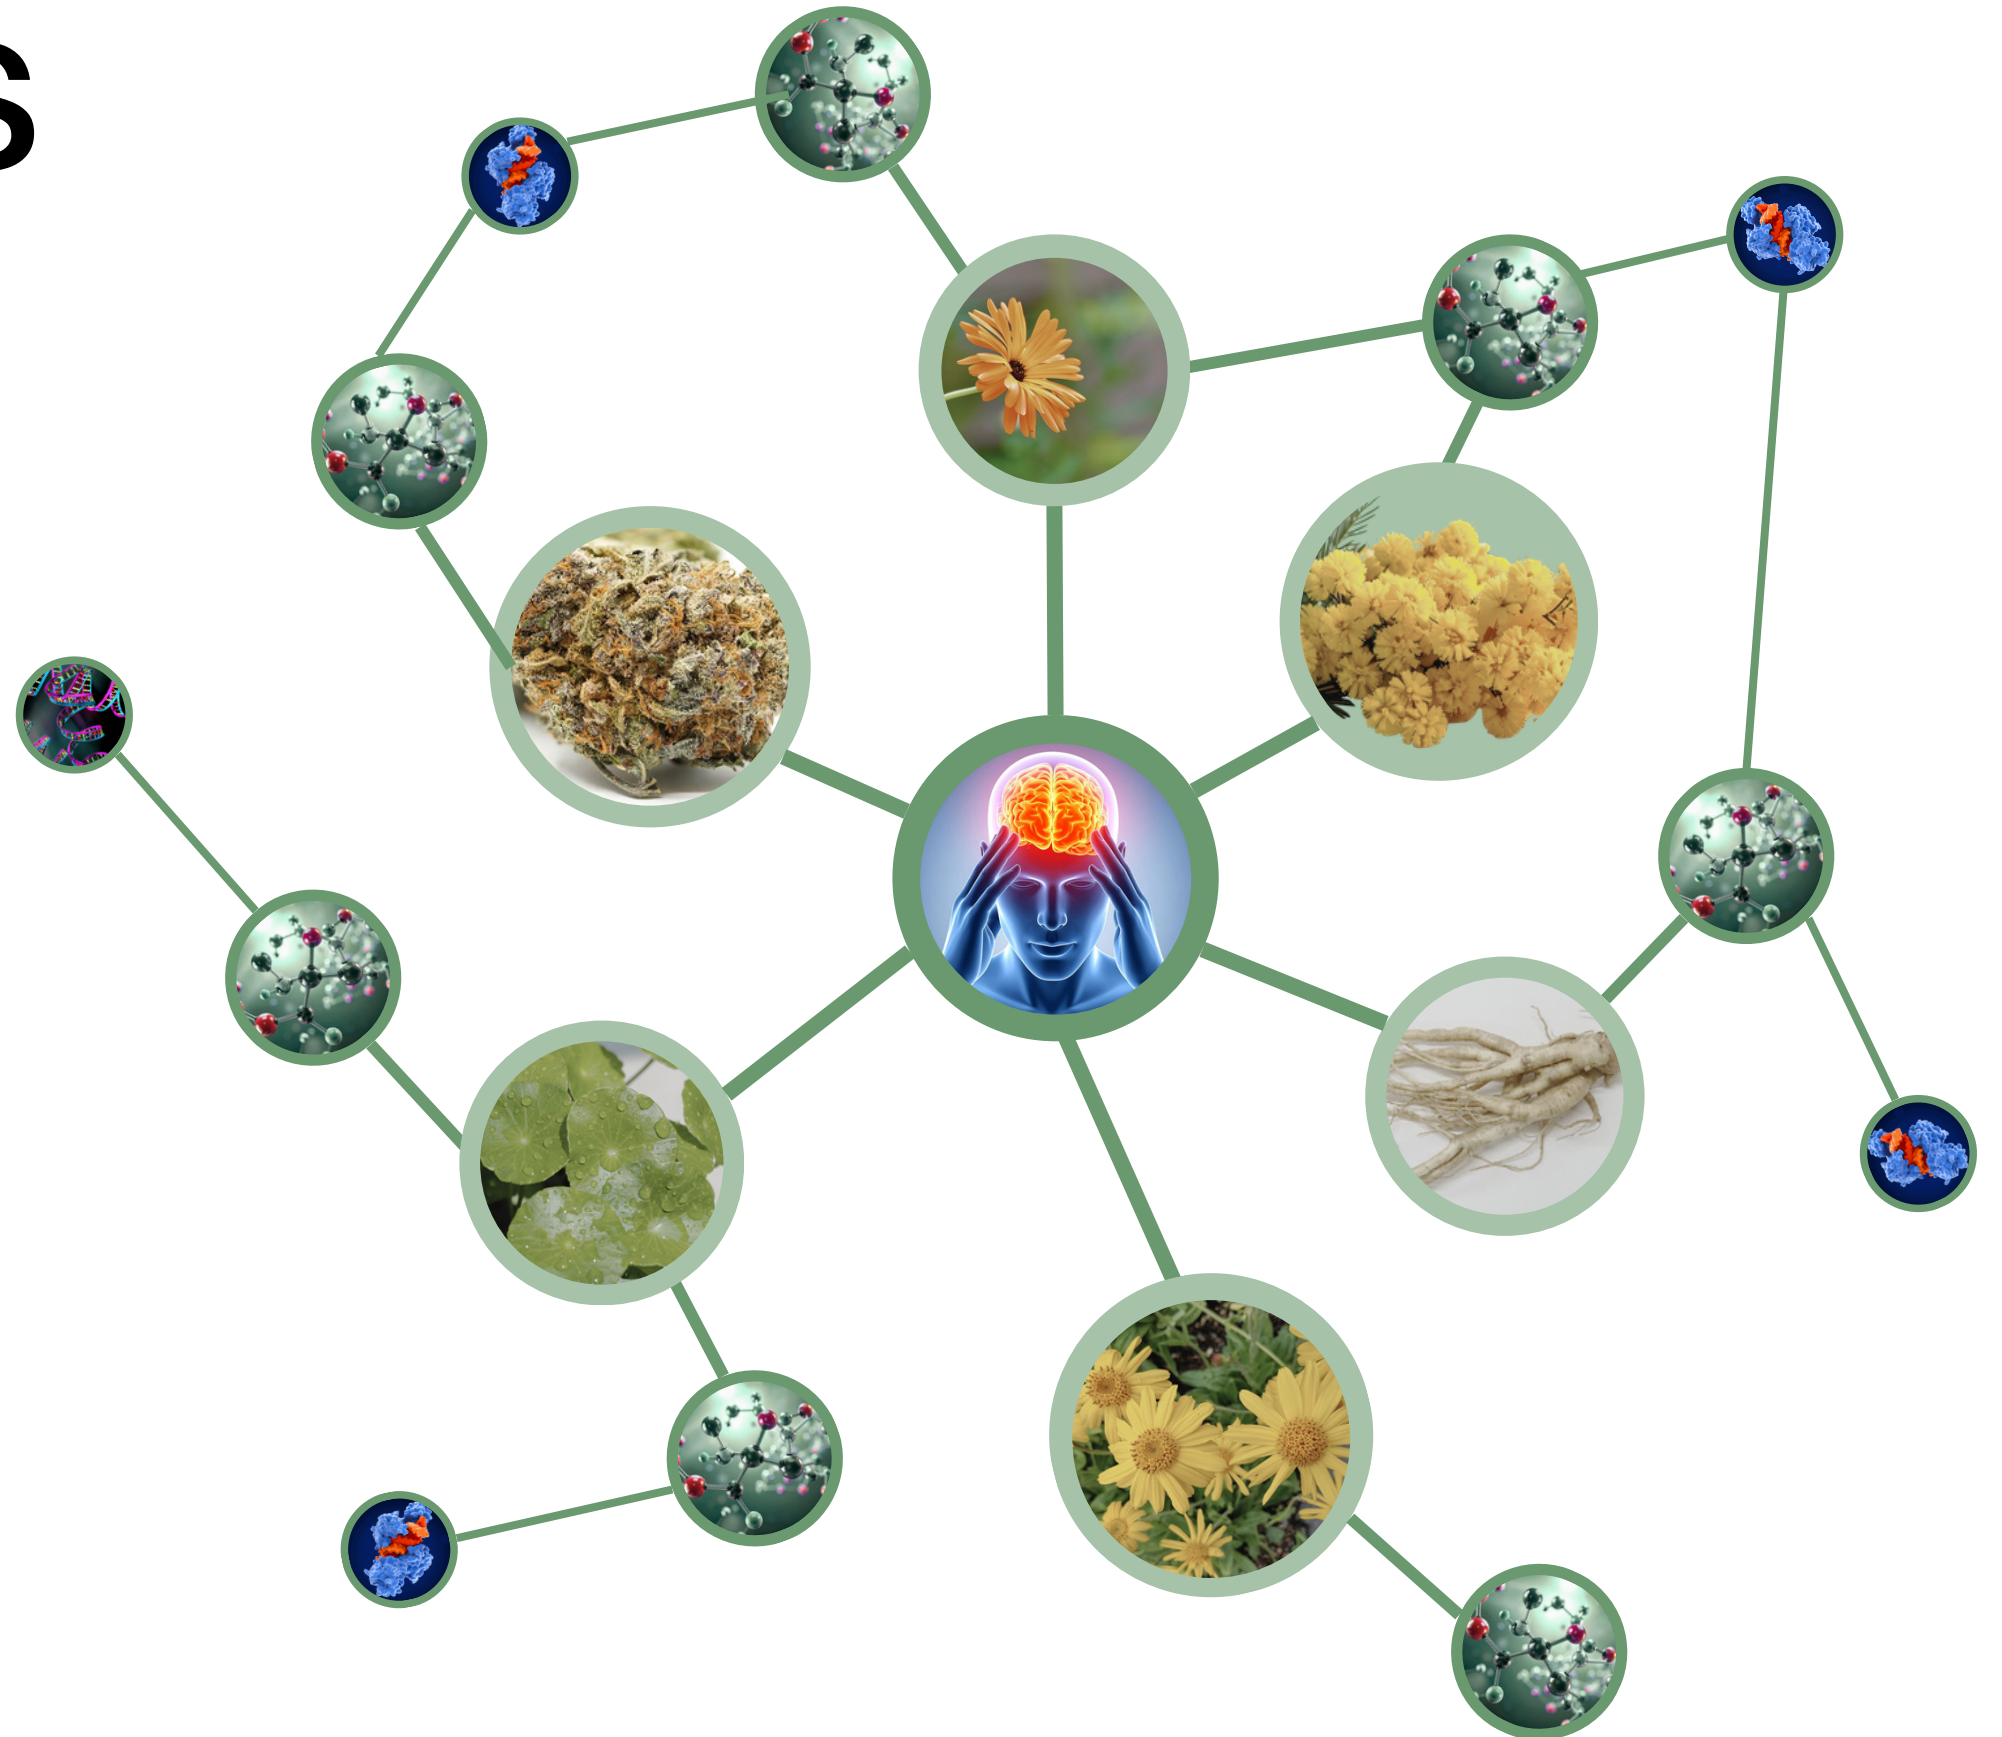

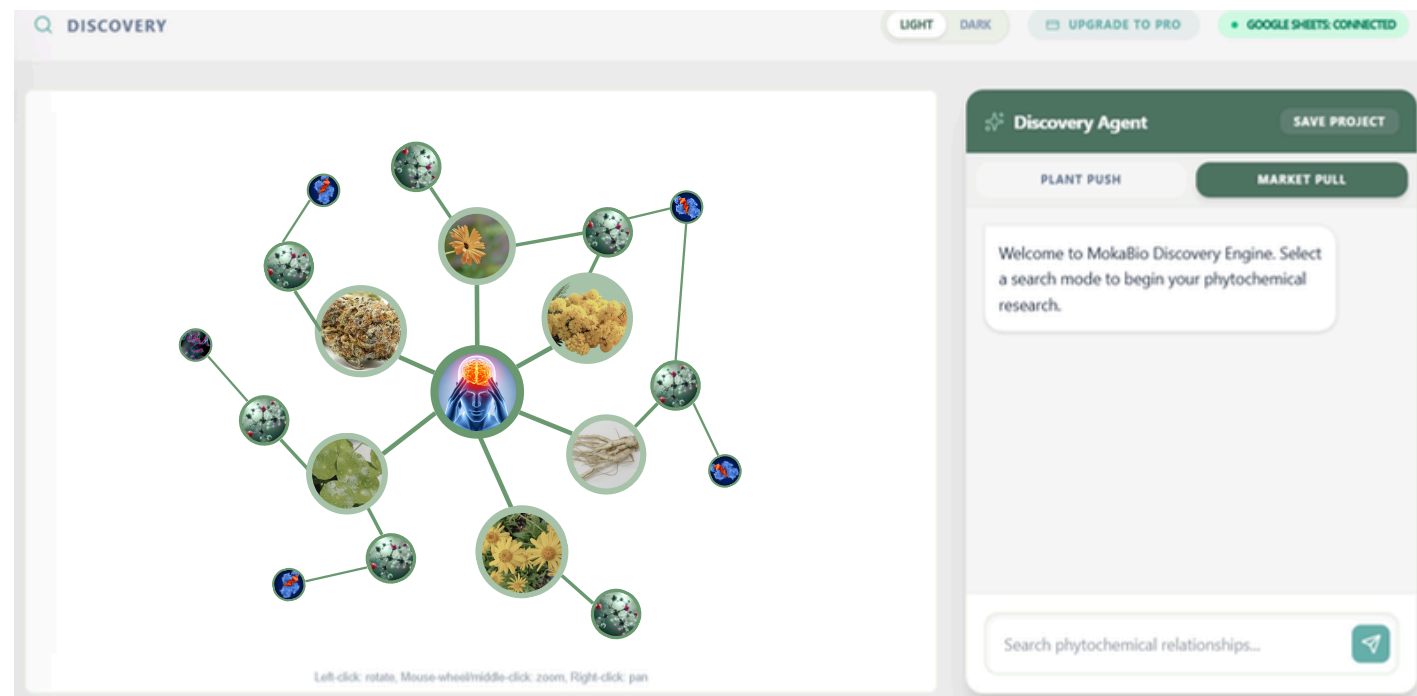

Find applications for your target plant...

Plant push

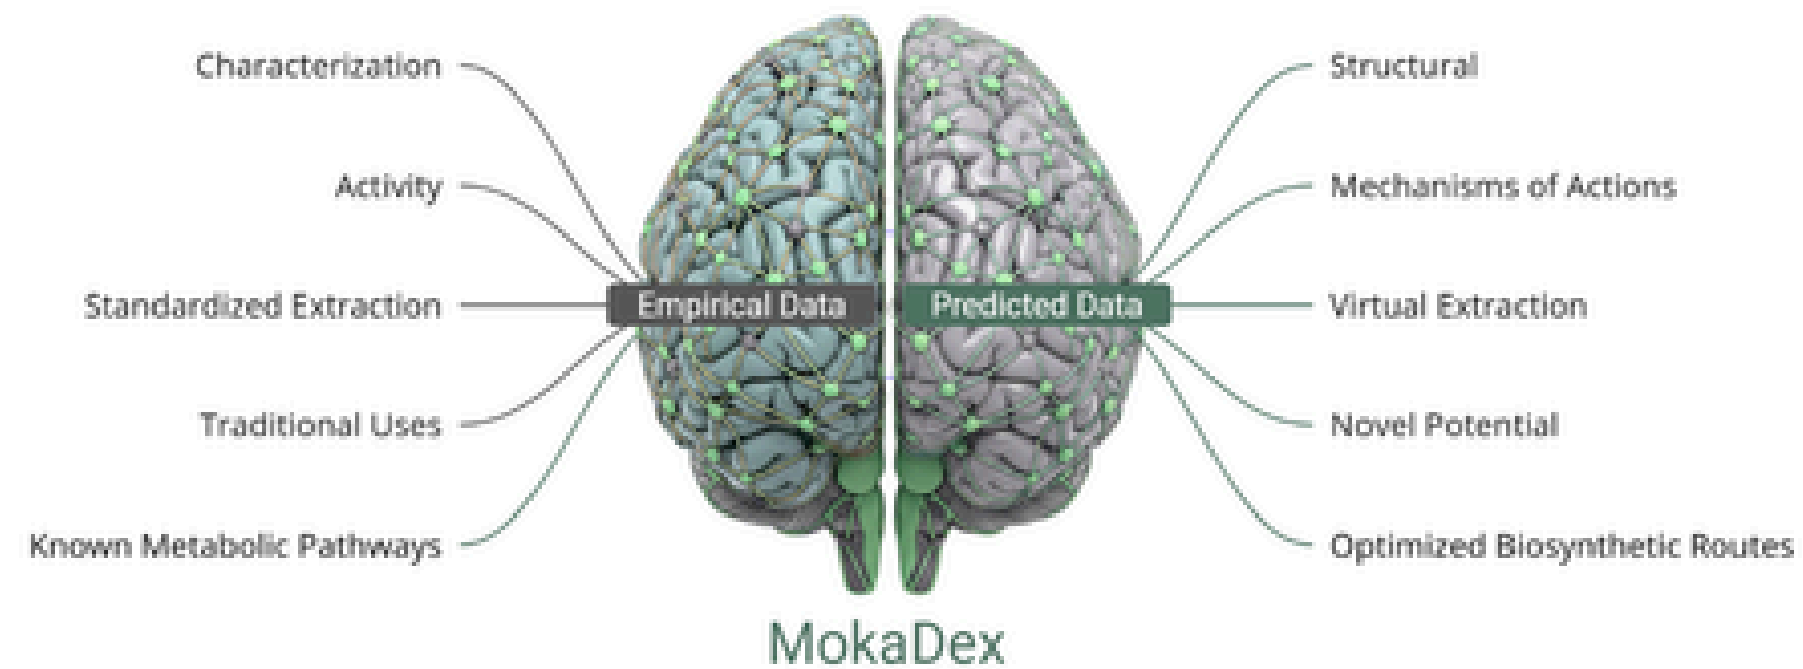

Find bioactives for your product...

Market pull

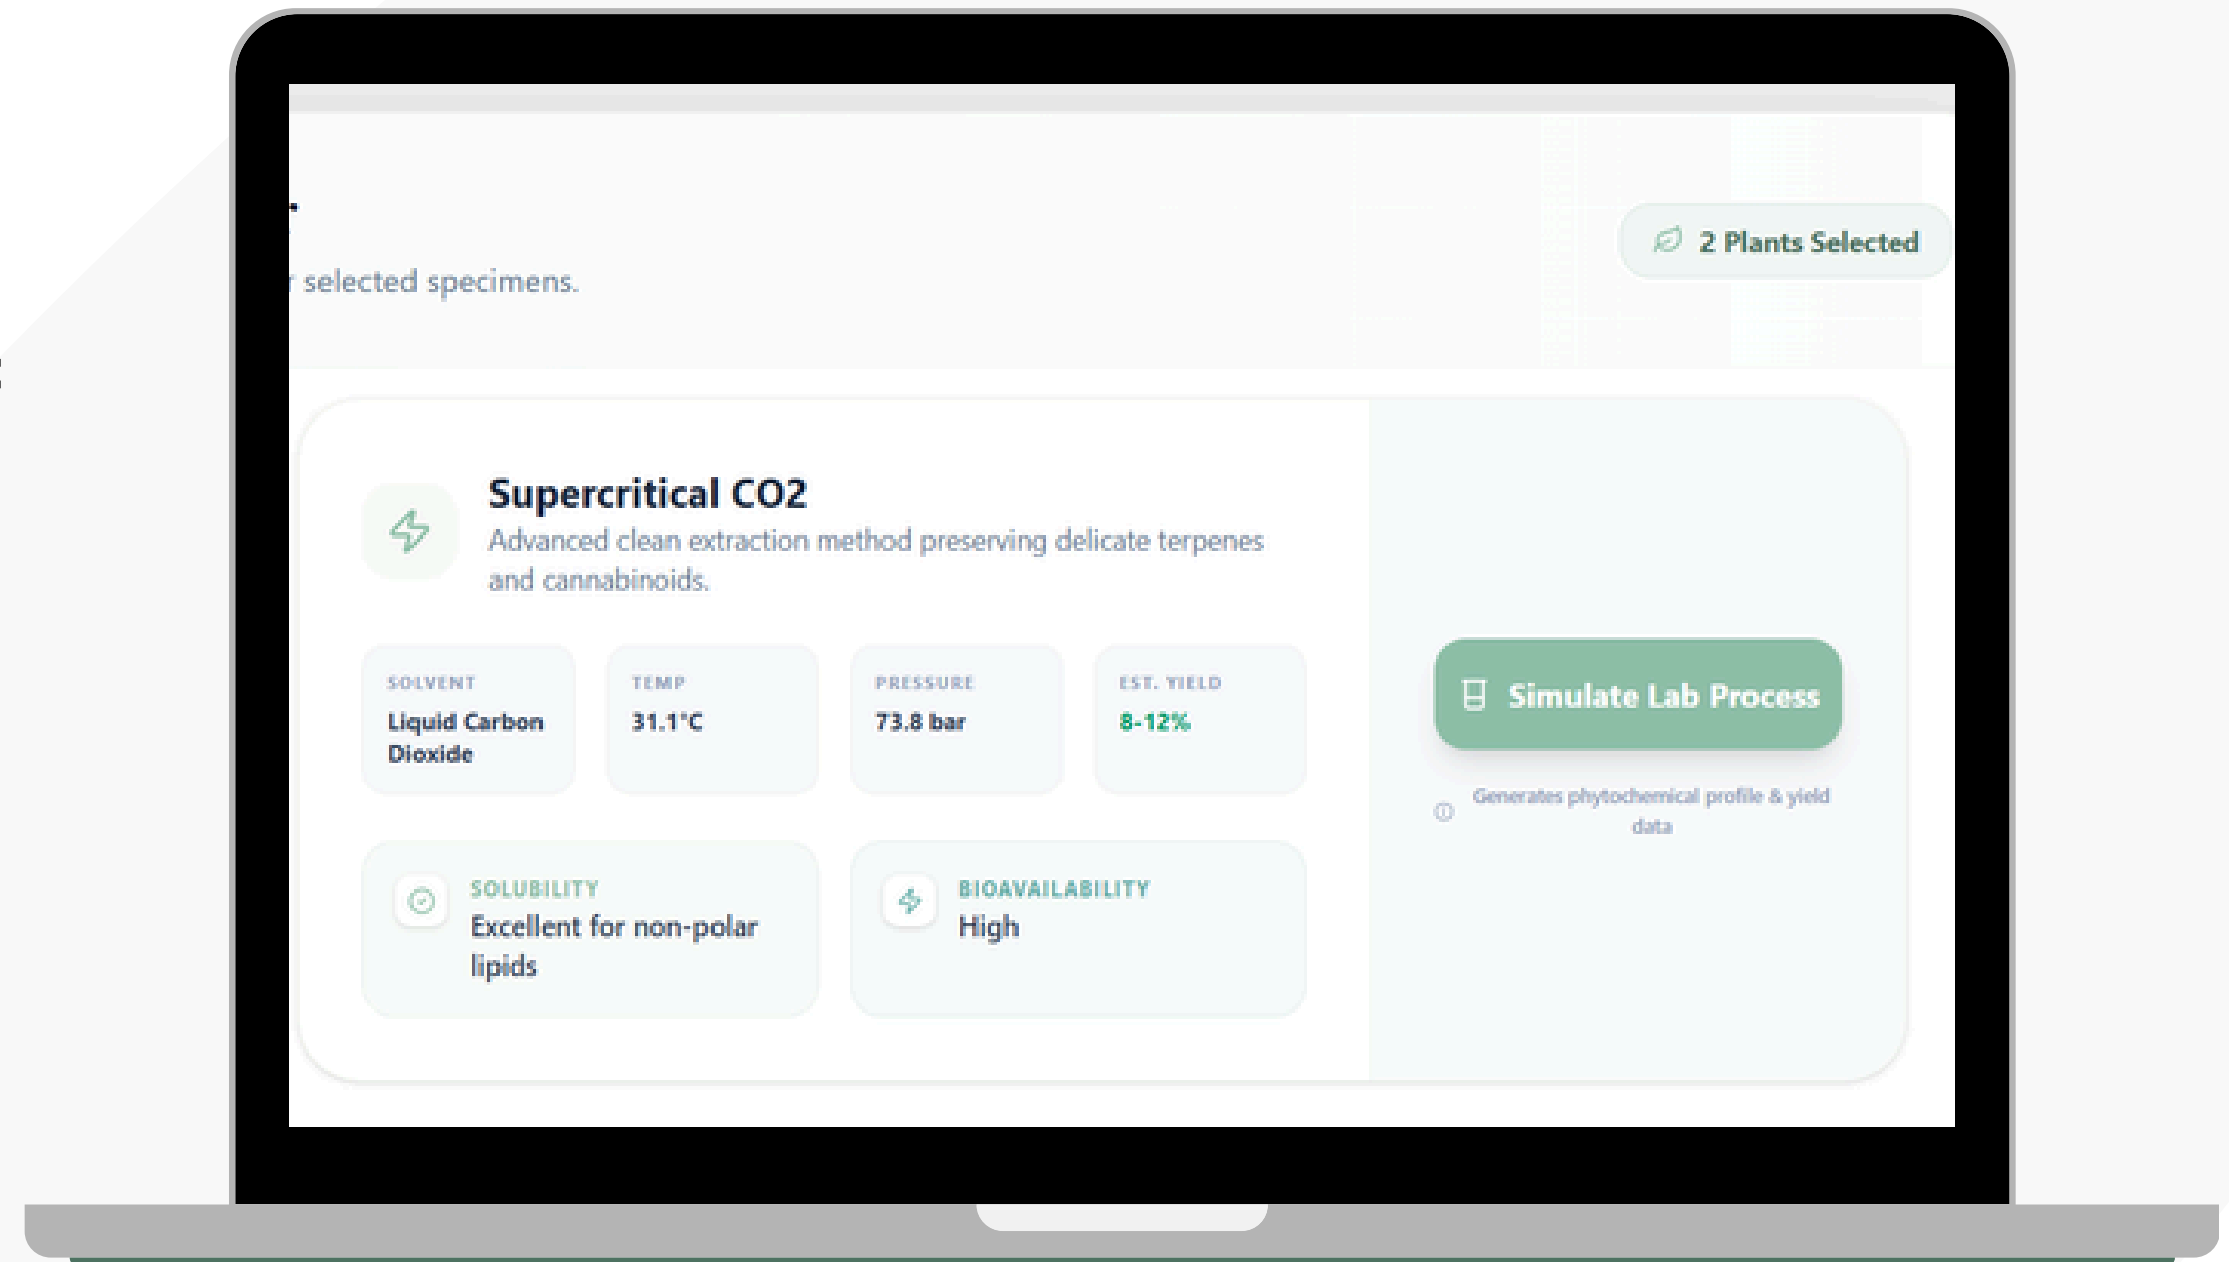

MokaDex

Plant-human relationships

Virtual Lab

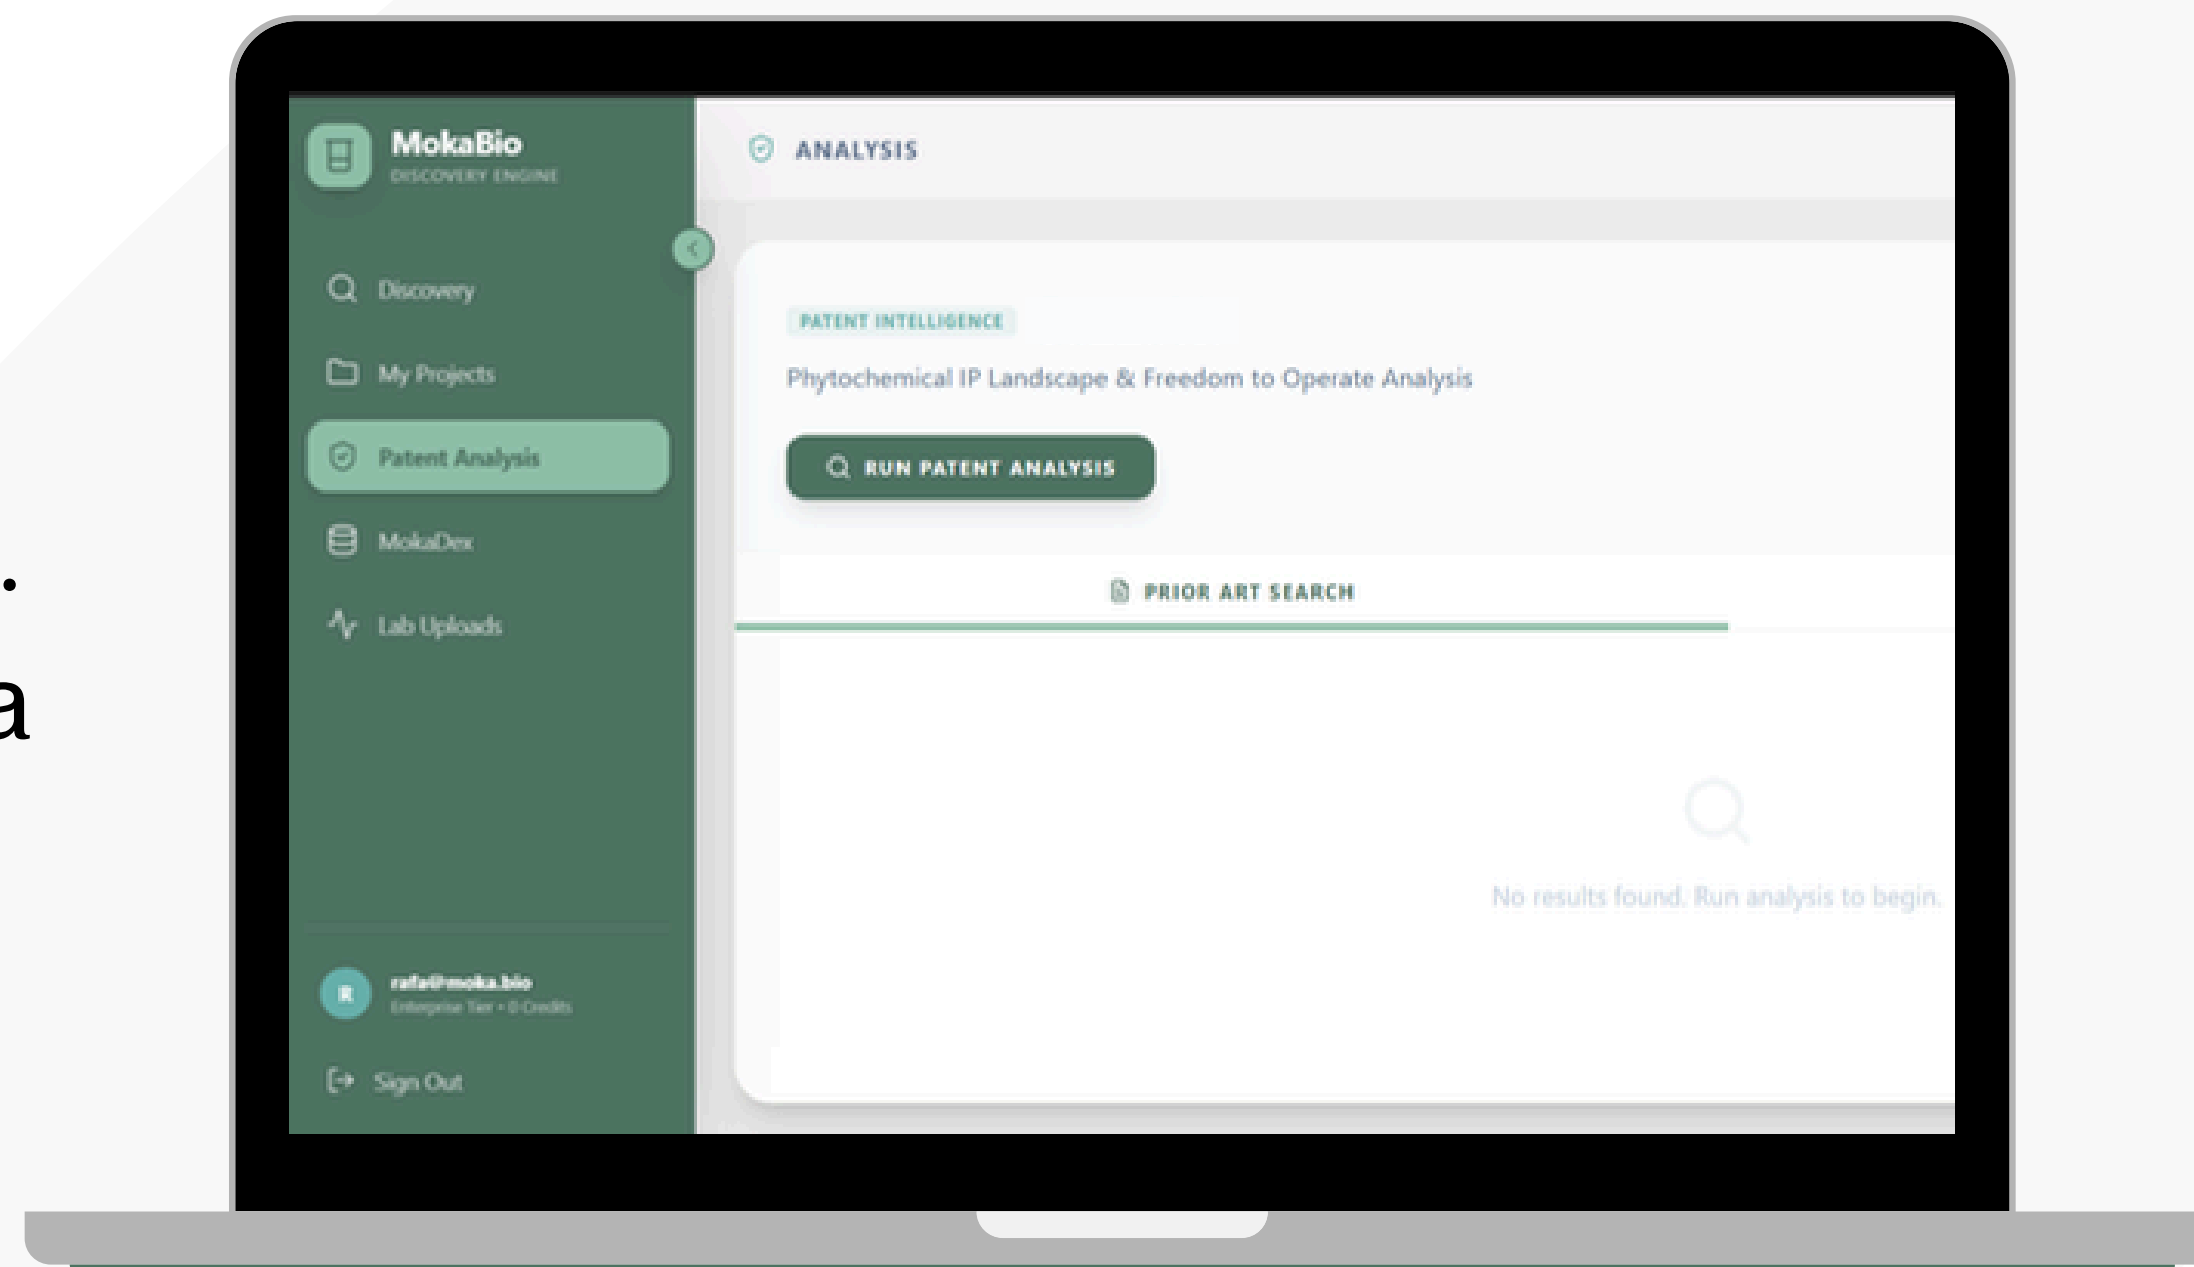

- Simulate extractions.
- Predict mechanisms of action.
- Scientific modules for deep research and development.

Test thousands of extracts before moving to the lab.

Patent assistant

- Identify relevant intellectual property before moving forward.
- Compare in-house data with state of the art information.

Compare your project with prior art with one click.

With Moka Bio

Savings

Before: 1 million USD per bioactive.

Now: 60k USD as many as you want.

Speed

Before: 2-7 years.

Now: weeks.

Innovation

Before: no clear path to IP protection.

Now: visibility of the IP landscape.

Business model

We charge an annual subscription fee per user, plus usage-based token fees.

\$ 6,000

Start-ups & pymes

\$500/month

\$ 60,000

Enterprise

\$5,000/month

Who needs us?

Primary market

Companies that design, develop, and produce bioactive ingredients.

Givaudan Active Beauty

Secondary market

Consumer brands that seek natural actives and product differentiation.

About 11,000 U.S. companies could benefit from Moka Bio

8,000 companies

3,000 companies

100 companies

Last year:

Companies spent

\$ 190 B

in bioactive R&D

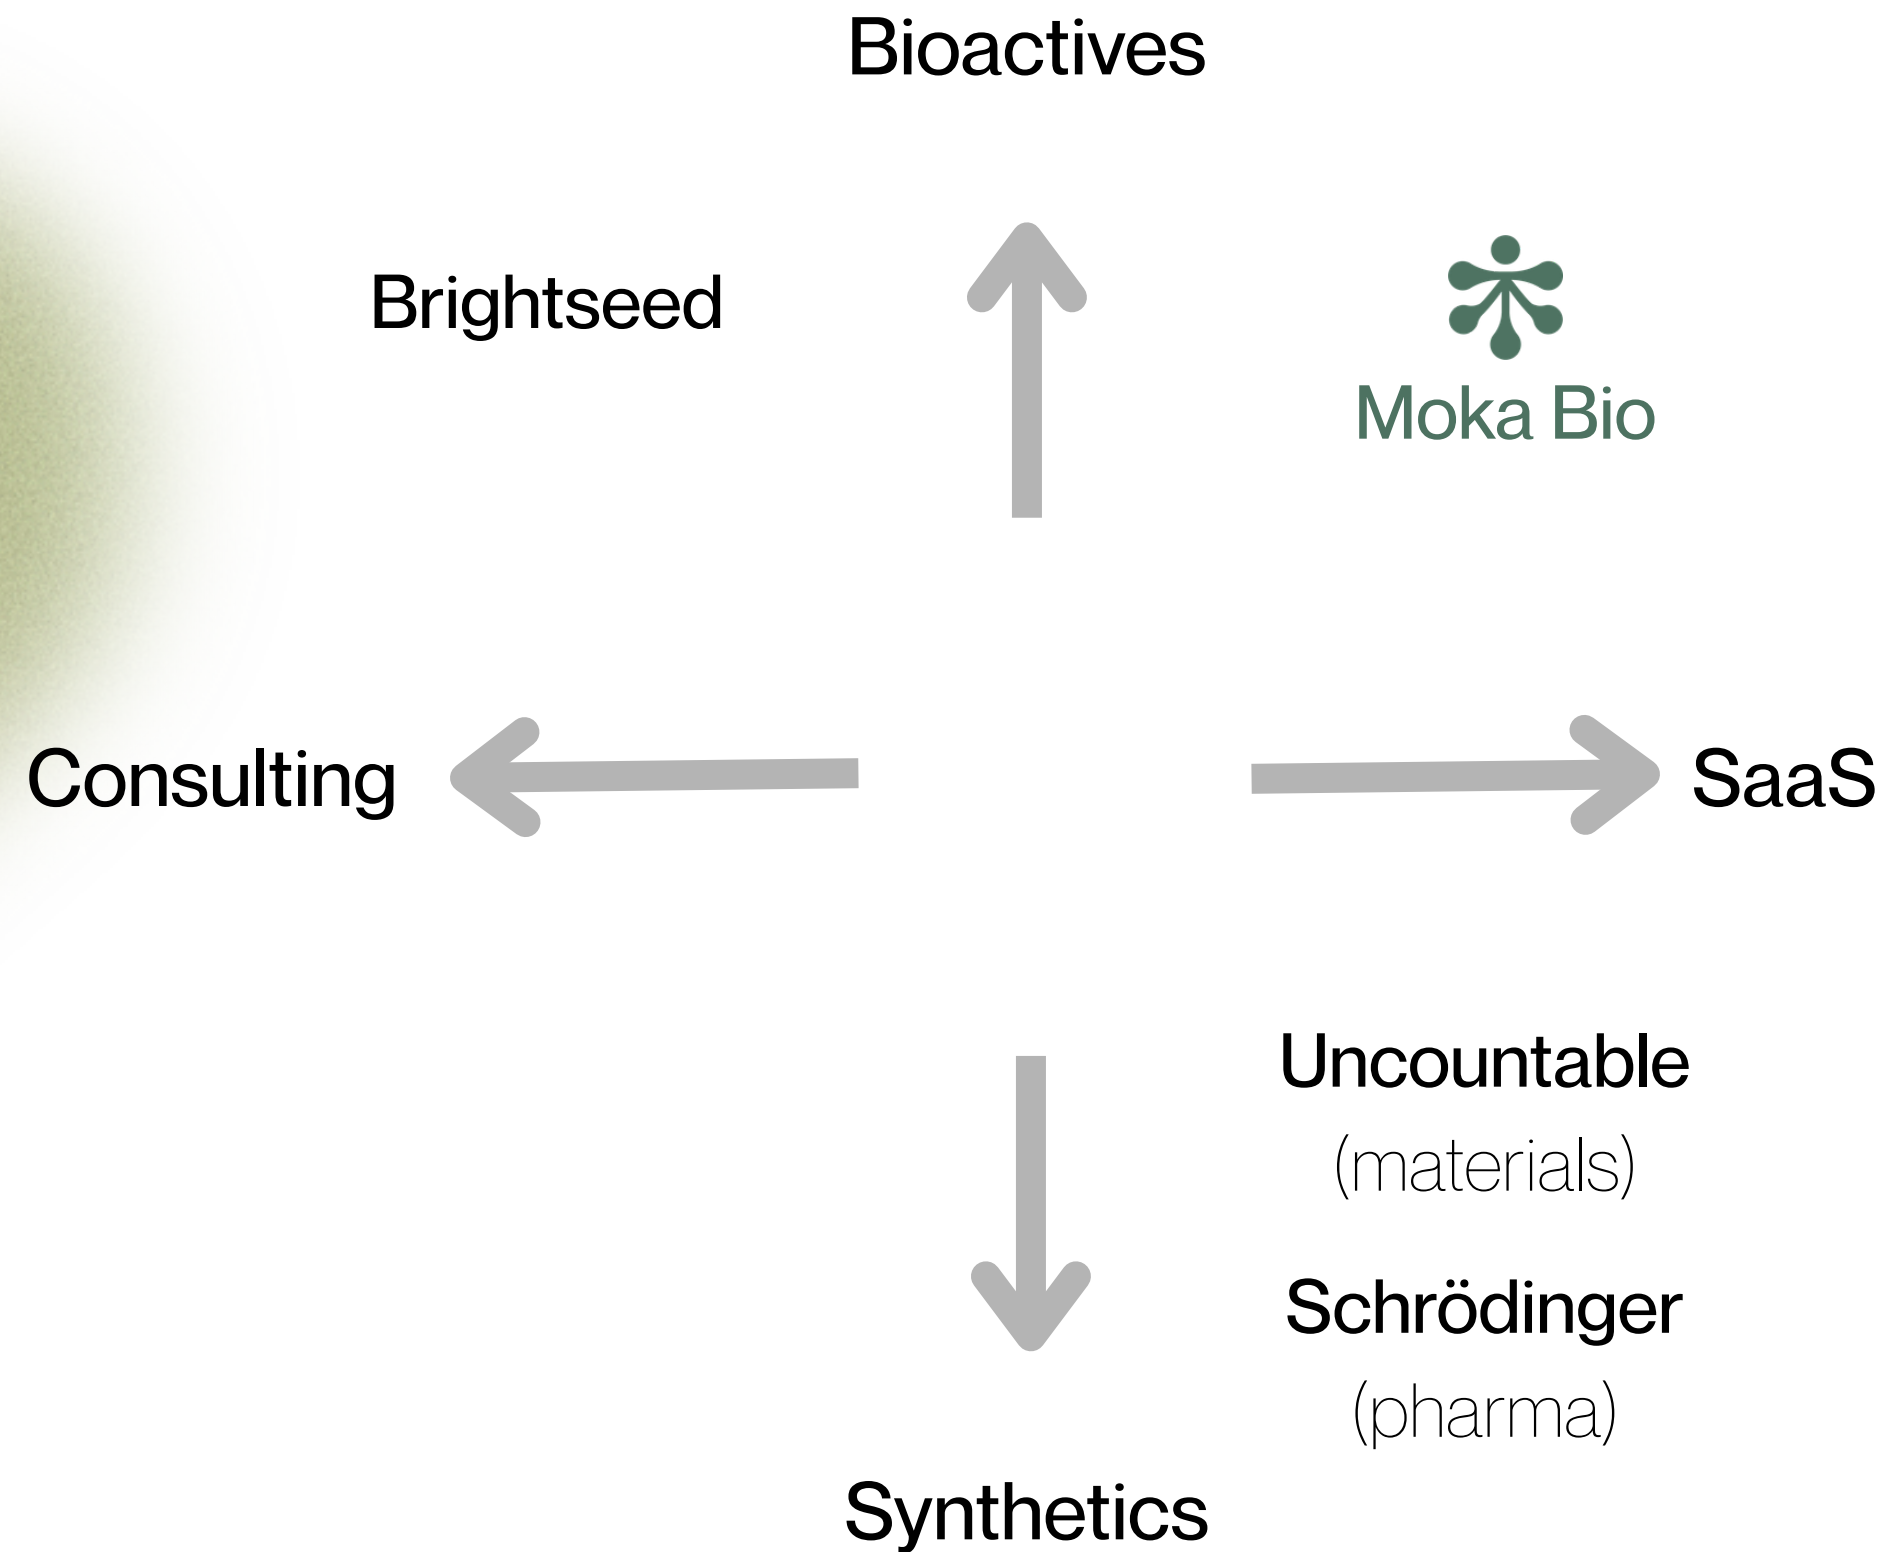

and, only

79
new products

reached the market.

Competition

There is no SaaS
platform
specialized in
bioactives.

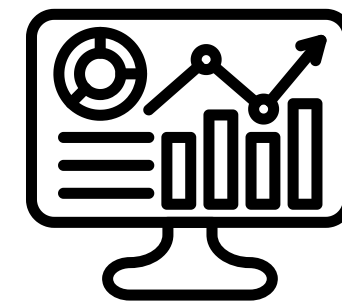

Competitive Advantage

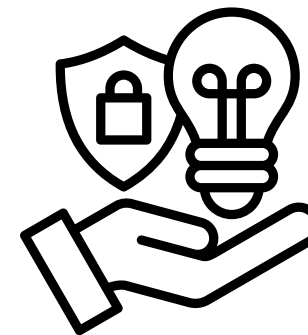

First-to-market

Specialized in natural bioactives.

Proprietary data

Unique algorithms and lab data.

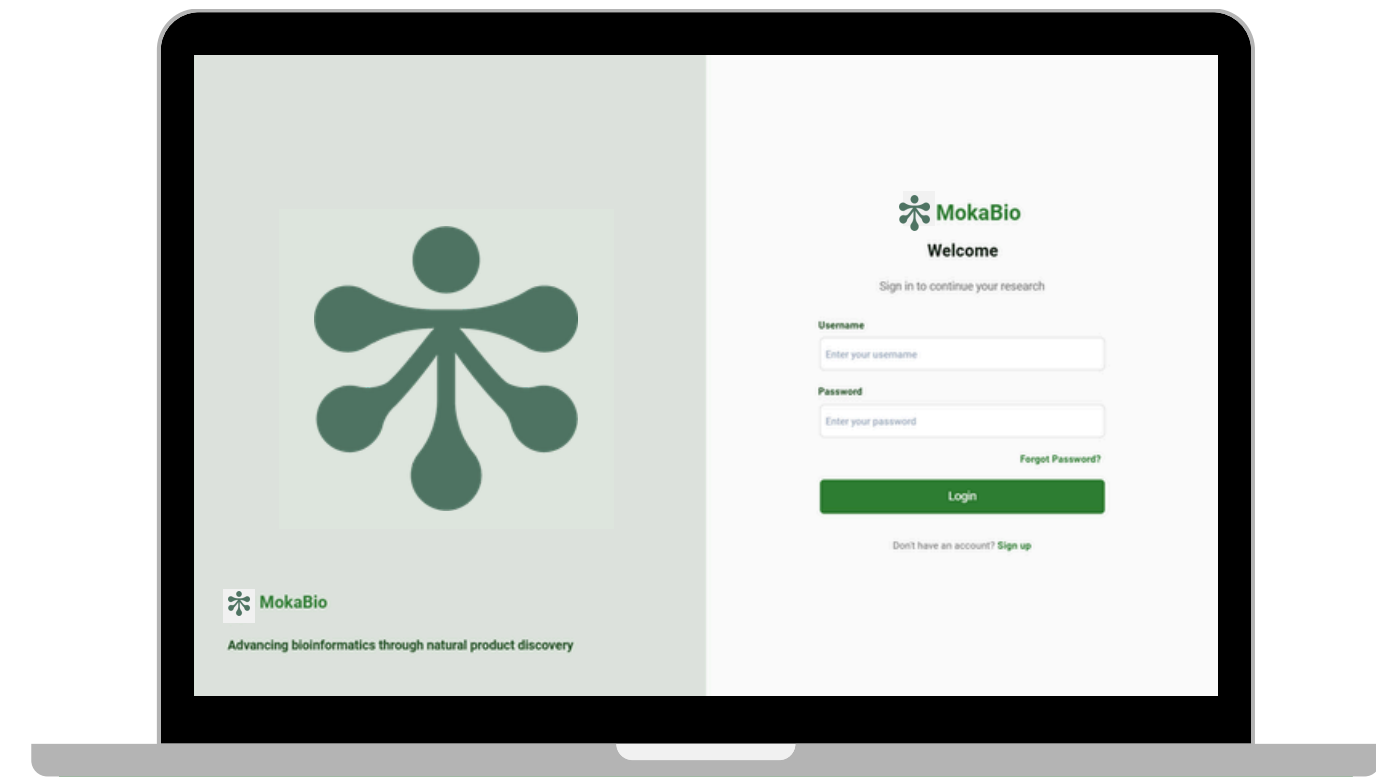

Intellectual Property

Connected to patent databases.

Tracción

- 1.- Functional MVP
- 2.- 30,000 plants indexed
- 3.- 150,000 data entries
- 4.- 10 agents connected
- 5.- 2 internal development projects
- 6.- 1 provisional patent
- 7.- 11 bioprospecting reports delivered

Founders

CTO 

Florencia Castello,
Ph.D.

CEO 

Rafael Betanzos
J.D. & M.Sc.

CSO 

Facundo Gulías
Ph.D.

Advisors

Alejandrina Vendrell,
Ph.D.

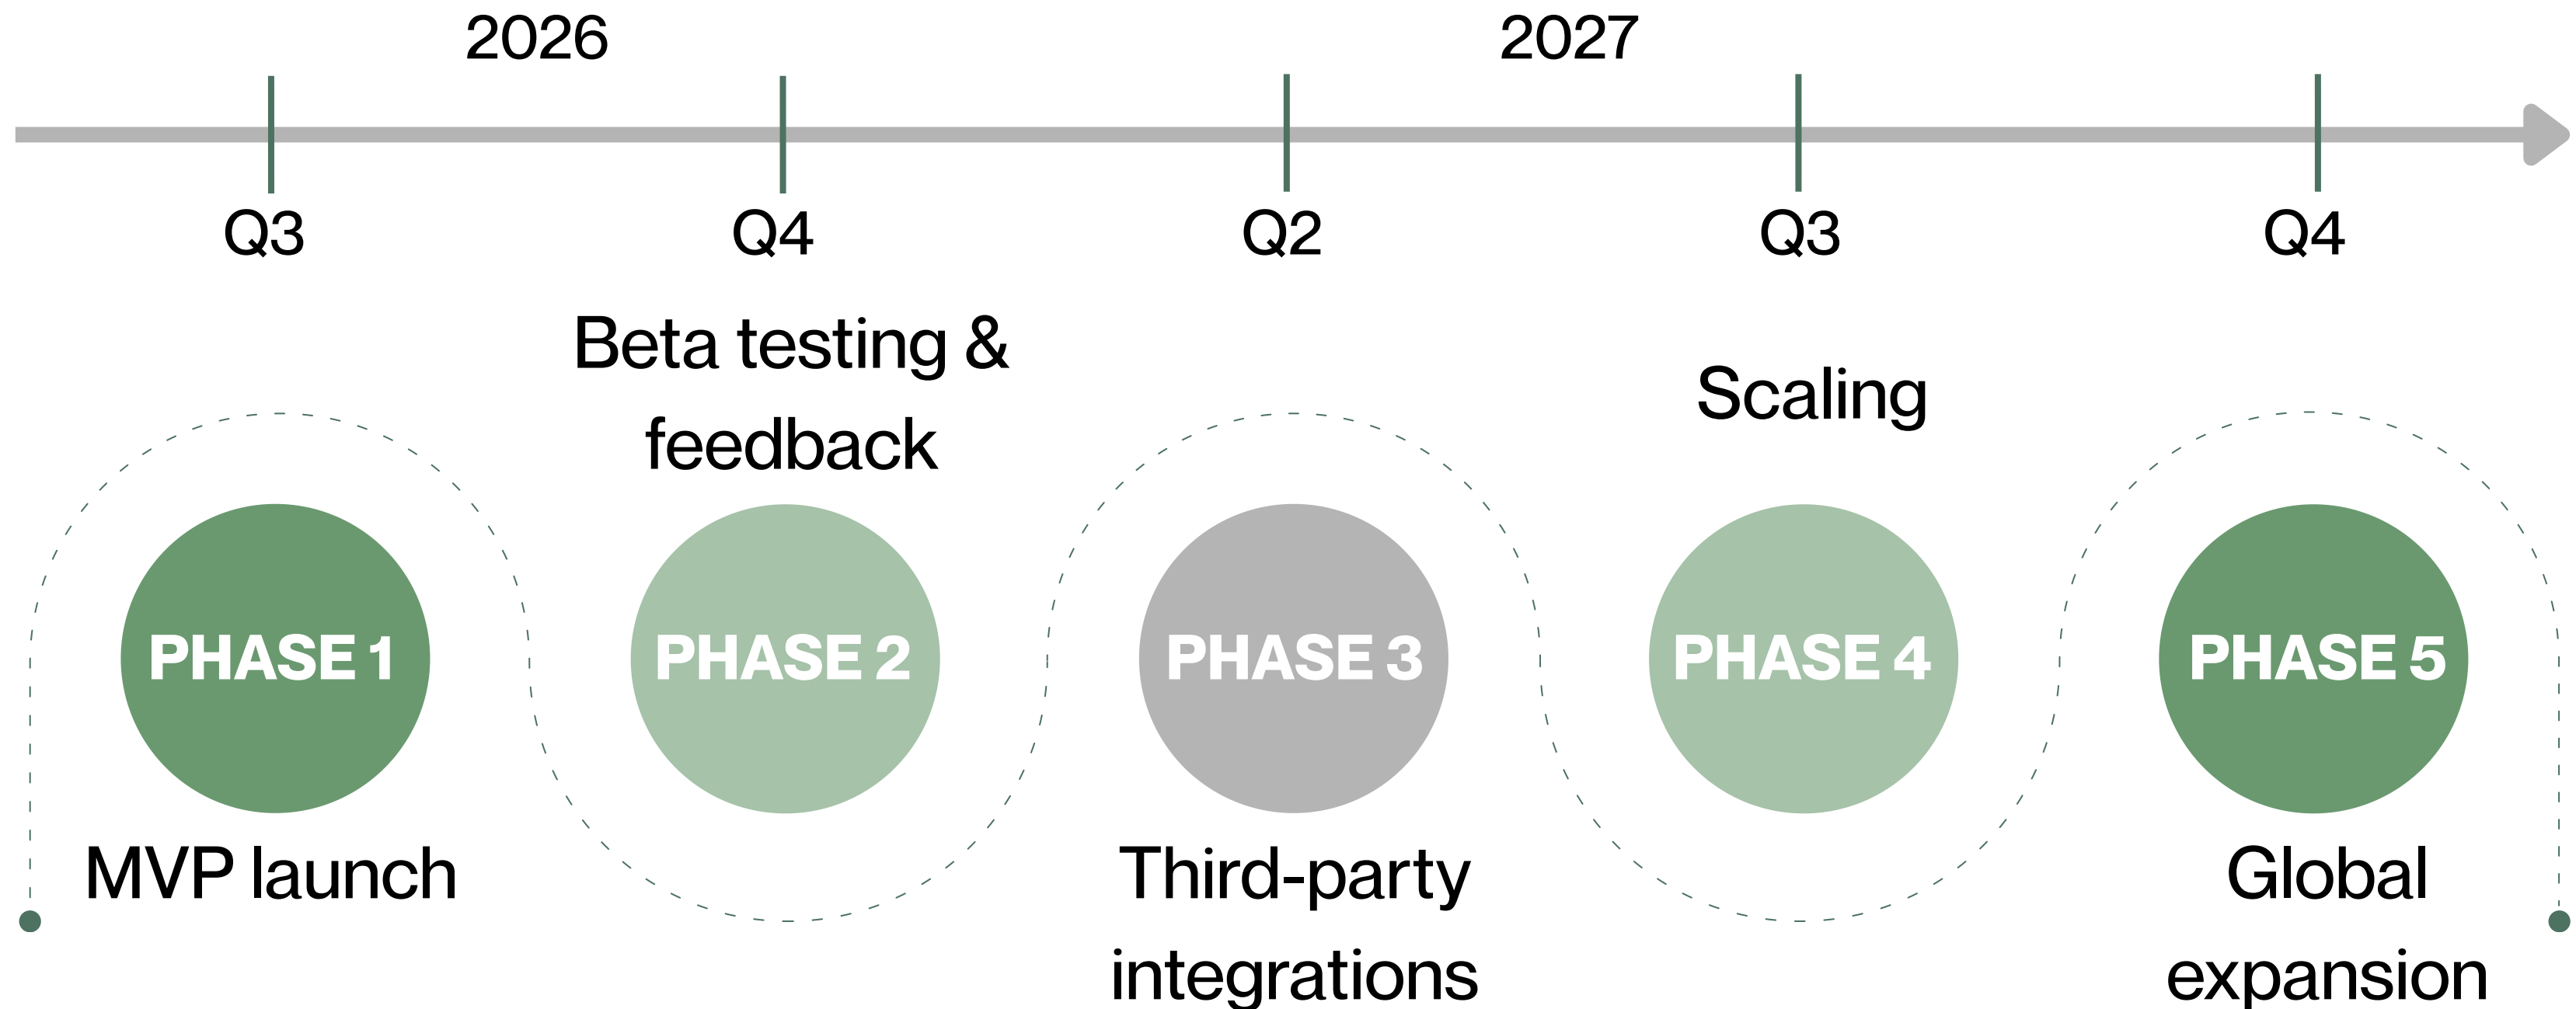

Adam Jozwiak,
Ph.D.

Claudia Benjamim,
Ph.D.

We are seeking \$500K to:

Let's accelerate bioactive discovery, together.
